The diagram illustrates the evolution of Manufacturing Execution Systems (MES) through four stages, represented by orange boxes on a light blue background. The stages are arranged in a staggered, upward progression from bottom-left to top-right:

- Legacy MES systems**: The bottom-most box, representing the earliest stage.
- Warehouse systems**: Positioned above and to the right of the Legacy MES systems box.
- Keko (Suo)**: Positioned above and to the right of the Warehouse systems box.
- FlexNet**: The top-most box, representing the most advanced stage, positioned above and to the right of the Keko (Suo) box.
